## **Item 1.01 Entry into a Material Definitive Agreement.**

### ***Investment Agreement***

On March 6, 2018, ReWalk Robotics Ltd. (“we,” “us” or the “Company”) entered into an investment agreement (the “Investment Agreement”) with Timwell Corporation Limited, a Hong Kong corporation (“Investor”), pursuant to which we agreed, in return for aggregate gross proceeds to us of \$20 million, to issue to Investor an aggregate of 16,000,000 of our ordinary shares, at a price per share of \$1.25, which represents a premium to the closing sale price of our ordinary shares as of March 6, 2018. Investor will make the investment in three tranches, consisting of \$5 million for 4,000,000 shares in the first tranche (the “First Tranche Closing”), \$10 million for 8,000,000 shares in the second tranche (the “Second Tranche Closing”) and \$5 million for 4,000,000 shares in the third tranche (the “Third Tranche Closing”). On a post-transaction basis, based on 30,006,575 of our ordinary shares outstanding as of March 5, 2018 (excluding ordinary shares issuable upon conversion or exercise of derivative securities owned by other shareholders or shares issued under our equity incentive plans and assuming no changes otherwise to our capitalization), after the First Tranche Closing, the Second Tranche Closing and the Third Tranche Closing, Investor will beneficially own 11.8%, 28.6% and 34.8% of our ordinary shares, respectively

The First Tranche Closing is subject to the Company having received the approval by our shareholders of the transaction under Rule 5635 of The Nasdaq Stock Market LLC (“NASDAQ”) and Israeli law. The Second Tranche Closing is subject to the conditions that, by July 1, 2018, (i) the Company and an affiliate of Investor will have formed the China JV (as defined below), and (ii) by no later than 20 days after the establishment of the China JV (or as soon thereafter as possible), the China JV and the Company will have executed the License Agreement and Supply Agreement (each as defined below). The Third Tranche Closing is subject to the conditions that, by April 1, 2019, (i) the Company will have provided to the China JV product documentation, component supply access, work instructions, know-how and training, and will have defined quality system requirements necessary for rehabilitation using the Company’s Restore product, and (ii) a China-based manufacturer or agent defined by the China JV will have successfully produced the Company’s Restore product to the quality requirements defined by the Company. The Third Tranche Closing is expected to occur by December 31, 2018, before the April 2019 deadline under the Investment Agreement. The transaction is also subject to other customary closing conditions. The Company plans to include the issuance of the 16,000,000 ordinary shares to Timwell as a proposal for shareholder approval at its 2018 Annual Meeting of Shareholders.

The Company intends to use the net proceeds from the issuances under the Investment Agreement (i) primarily for (a) sales, marketing activities related to market development in our existing markets as well as expanding into China and reimbursement expenses related to broadening third-party payor coverage and (b) research and development costs related to developing our lightweight “soft suit” exoskeleton technology for various lower limb disabilities, including stroke and other indications affecting the ability to walk, (ii) with respect to any remaining proceeds for general corporate purposes.

### ***Lock-up Period***

Until 18 months following the Third Tranche Closing, subject to limited exceptions, Investor may not sell or transfer the ordinary shares purchased under the Investment Agreement (the “Purchased Shares”) except to its affiliates, unless a majority of the directors of our board of directors (the “Board”), excluding any member of our Board nominated or designated by Investor, approves the transfer. Following this 18-month lock-up period, except for transfers of up to 10% of the shares to third parties who are not competitors of the Company, any sale or transfer of the Purchased Shares must be pursuant to Rule 144 under the Securities Act of 1933 (the “Securities Act”) or an underwritten public offering. This restriction will terminate if any of the JV Agreement (as defined below), the License Agreement and the Supply Agreement is not executed within 12 months after the First Tranche Closing or is terminated. Investor may also sell its Purchased Shares pursuant to any third-party tender offer for all of the Company’s ordinary shares.

### *Board Appointment Rights*

Pursuant to the Investment Agreement, Investor will be entitled upon the First Tranche Closing, and for so long as it maintains a 75% ownership of the Purchased Shares, to designate one nominee to our Board. Following the Third Tranche Closing and for so long as the shareholding requirements of the Purchased Shares above are satisfied, Investor will be entitled to designate such aggregate number of members of the Board equal to the higher of (i) one, or (ii) the number of Board members affiliated with the Company's next two largest shareholders at such time.

### *Standstill and Voting Agreement*

Subject to certain limitations set forth in the Investment Agreement, Investor has agreed not to acquire additional equity securities of the Company and has agreed to customary "standstill" arrangements, pursuant to which it will not take certain actions related to, or knowingly encourage others to take actions related to, business combinations, mergers, tender offers or restructurings, and will refrain from taking certain actions related to the calling of meetings, proxies, proposals, director nominations, voting trusts and other actions of shareholders. Investor has also agreed to vote its ordinary shares in accordance with the recommendations of our Board on shareholder proposals and Board proposals relating to any change of control, election of directors, amendments to the Company's organizational documents, director and officer compensation and certain other related matters, provided that the action does not have an disproportionate adverse impact on Investor's rights as a shareholder compared to the other shareholders.

Notwithstanding the above, pursuant to the Investment Agreement, Investor will not be restricted from purchasing shares in open-market transactions after the Third Tranche Closing, so long as Investor and its affiliates together beneficially own not more than 35% of the outstanding shares of the Company. The standstill will remain in effect for so long as Investor beneficially owns or has rights to at least 10% of the outstanding ordinary shares of the Company, and the voting agreement will remain in effect for so long as Investor beneficially owns or has rights to at least 5% of the outstanding ordinary shares of the Company.

### *Preemptive Rights*

The Investment Agreement grants Investor certain preemptive rights. Following the First Tranche Closing and as long as Investor holds at least 75% of the aggregate of the then-Purchased Shares at any of the First Tranche Closing, Second Tranche Closing and Third Tranche Closing through the date of determination of the preemptive right under the Investment Agreement, if any, in the event that the Company proposes to offer or sell any new securities other than in a public offering, the Company must first offer Investor the right to purchase its then-applicable preemptive pro rata fraction of such new securities as calculated based on the terms provided in the Investment Agreement.

### *Registration Rights Agreement*

Pursuant to the Investment Agreement, upon the First Tranche Closing, the Company and Investor will enter into the form of registration rights agreement attached as Annex A to the Investment Agreement (the "Registration Rights Agreement"), relating to registration under the Securities Act of resales of the Purchased Shares. Pursuant to the Registration Rights Agreement, Investor and certain permitted transferees will have certain demand and piggyback registration rights with customary indemnification provisions, subject to customary cutbacks on the number of shares to be registered or offered in an underwritten offering where the managing underwriter advises that marketing factors call for a limitation on the number of shares to be registered or offered. The registration rights will terminate upon certain customary triggers, including when Investor and certain permitted transferees could sell all of their Purchased Shares without restriction pursuant to Rule 144 under the Securities Act.

### *China JV, License Agreement and Related Agreements*

#### *China JV*

Pursuant to terms of the joint venture framework agreement, dated March 6, 2018 (the "JV Framework Agreement"), between the Company and RealCan Ambrum Healthcare Industry Investment (Shenzhen) Partnership Enterprise (Limited Partnership), an affiliate of Investor ("Investor JV Party"), the Company and Investor JV Party intend to form a joint venture company in China for the purposes of research and development, assembly, registration, import, operations, sales and marketing of the Company's products in China (including Hong Kong and Macau) (the "China JV"). Under the JV Framework Agreement, the China JV will be owned 80% by Investor JV Party and/or other affiliates of the Investor and Investor JV Party to be agreed to by the parties in the JV Agreement ("Investor China Parties") and 20% by the Company (which ownership by the Company will not be diluted for at least the first five years after the formation of the China JV).

The parties have agreed that they will collaborate to form the China JV by negotiating and signing a JV agreement (the “JV Agreement”), consistent with the terms of the JV Framework Agreement. Pursuant to the JV Framework Agreement, the Company will not compete with the China JV in China (including Macau and Hong Kong), and Investor JV Party will not compete with the Company anywhere in the world.

As set forth in the JV Framework Agreement, Investor China Parties will appoint four of the China JV’s directors and the Company will appoint one director. The initial chief executive officer and the initial chief financial officer of the China JV will be appointed by joint agreement of Investor China Parties and the Company. The Company will have customary minority protection rights, including a requirement that board decisions on specified matters be unanimous, which will survive any public offering of the China JV to the extent permissible. There will also be restrictions in the JV Agreement on the parties’ ability to sell or transfer their shares in the China JV other than to permitted transferees. Investor China Parties and the Company will have a right of first refusal on proposed sales by the other party, and the Company will have a tag-along right if Investor JV Party proposes to sell its shares in the China JV. Upon a change in control of the Company, Investor China Parties will have the right to purchase the shares in the China JV owned by the Company at fair market value. In addition, each party will have the right to purchase the other party’s shares, if the other party proposes to sell its shares to a competitor of the remaining party.

In order for the China JV to maintain exclusive rights in China (including Macau and Hong Kong) to market and sell the Company’s products and the rights to the intellectual property, the China JV will be required to make certain minimum cash payments to the Company of the following amounts: \$1.25 million for the first year after formation; \$4 million for the second year after formation; \$8 million for the third year after formation; an amount increased annually by 15% of the preceding year’s amount for the fourth, fifth and sixth years after formation; an amount increased annually by 10% of the preceding year’s amount for the seventh, eighth and ninth years after formation; and an amount increased between 5% and 8% of the preceding year’s amount for the tenth year after formation onward.

The Company and Investor JV Party have agreed to use reasonable efforts to form the China JV, to negotiate and execute the JV Agreement on a date that allows reasonable time to ensure the establishment of the China JV no later than July 1, 2018, and to arrange for the China JV and the Company to execute and deliver the License Agreement and the Supply Agreement within 20 days after the establishment of the China JV.

#### *License Agreement*

In conjunction with and after formation of the China JV, the Company intends to execute a license agreement (the “License Agreement”) with the China JV with terms and conditions consistent with an agreed set of key terms (the “License Key Terms”). Pursuant to the License Key Terms, the Company will grant to the China JV (a) an exclusive, royalty-bearing, non-sublicensable (except as mutually agreed), non-transferable (except as mutually agreed) license under certain of the Company’s owned intellectual property, (b) an exclusive, royalty-bearing, non-sublicensable, non-transferable sublicense under certain of the Company’s controlled (but not owned) patent rights and (c) a non-exclusive, non-sublicensable, non-transferable sublicense under certain of the Company’s controlled (but not owned) know-how, in each case, solely for use for certain products in the China JV’s business and only in China (including Hong Kong and Macau).

The term of the License Agreement will expire upon expiration of all valid claims of the licensed patents. The License Agreement will also be terminable by the Company or the China JV due to the other party’s material uncured breach and for other events, including that sublicenses under any controlled (but not owned) intellectual property will terminate upon termination of the upstream license. The License Agreement will comply with and be expressly subject and subordinate to all requirements of any upstream license agreements and requirements of applicable law and will contain customary terms and conditions mutually agreed by the parties, including diligence, confidentiality, indemnity and limitation of liability provisions.

### *Supply Agreement*

The Company and Investor also intend for the China JV and the Company to enter into a supply agreement consistent with an agreed form of supply agreement attached as Annex G to the Investment Agreement (the "Supply Agreement") pursuant to which the Company will sell its products to the China JV, for resale solely in China (including Macau and Hong Kong). The Supply Agreement will set a target profit margin for the Company on the sale of its products to the China JV, and also shall specify the credit terms to be afforded to the China JV on these sales. The China JV's rights under the Supply Agreement are conditioned on satisfaction of the minimum cash payments as are specified in the JV Agreement (as described above). The term of the Supply Agreement will be concurrent with the term of the License Agreement, subject to termination provisions and other terms to be agreed to by the parties in the Supply Agreement.

The Investment Agreement and JV Framework Agreement contain a number of representations and warranties that we and Investor (and its affiliates) have made to each other that are customary in such transactions. Moreover, representations and warranties are frequently utilized in agreements as a means of allocating risks, both known and unknown, rather than to make affirmative factual claims or statements. These representations and warranties are made as of specific dates and are subject to important exceptions and limitations, including a contractual standard of materiality different from that generally applicable under federal securities laws. Accordingly, persons not party to the Investment Agreement or the JV Framework Agreement should not rely on the agreement for any characterization of factual information about us, Investor or Investor JV Party.

March 8, 2018

**ReWalk Robotics Announces \$20 Million Strategic Investment from Timwell Corporation Limited**

*-- ReWalk and Timwell to form joint venture to develop, manufacture and market ReWalk products in China --*

*-- Establishes platform for accelerated growth in largest single stroke market --*

*-- ReWalk to host live call and webcast to discuss this announcement and review its fourth quarter and full year 2017 financial results on Thursday, March 8, 2018 at 8:30 am EST--*

Marlborough, MA/Yokneam Ilit, Israel – ReWalk Robotics, Ltd. (Nasdaq: RWLK) (“ReWalk” or “the Company”) announced today that the Company has entered into a strategic investment agreement with Timwell Corporation Limited (“Timwell”), a Hong Kong corporation. ReWalk will receive \$20 million in exchange for an aggregate of 16,000,000 of ReWalk ordinary shares, at a price per share of \$1.25, as part of a broad strategic agreement to fund ReWalk’s overall development worldwide and to establish ReWalk’s presence in the Chinese market.

Under terms of the agreement, ReWalk and Timwell, through its affiliates and RealCan Ambrum Healthcare Industry Investment (Shenzhen) Partnership Enterprise (Limited Partnership) (“RealCan Ambrum”), plan to form a joint venture in China to develop, manufacture and market ReWalk’s products in China, including Hong Kong and Macau. The joint venture will initially focus on development, production and marketing of ReWalk’s Restore soft-suit exoskeleton for stroke patients in a rehabilitation setting, followed by commercialization of ReWalk’s spinal cord injury products for community and rehabilitation use. All capital funding for the joint venture will be provided by RealCan Ambrum with ReWalk contributing the technology.

“This investment from Timwell, a well-capitalized partner with deep local knowledge, enables us to expand the planned launch of the Restore soft suit exoskeleton in the United States and Europe to China. The expansion to China adds access to a market where there are more than 11 million stroke survivors, and 2.4 million people suffer stroke each year. To serve that population, the number of stroke rehabilitation centers in China is expected to exceed those in the US and EU combined by 2021,” said ReWalk CEO Larry Jasinski.

“This agreement also underscores Timwell’s belief in the strength of our Restore technology to address the mobility and rehabilitation needs of the stroke community. We believe the unique Restore technology has the potential to revolutionize the use of and cost structure for exoskeletons worldwide,” added Jasinski.

Under the terms of the agreement, Timwell will make the \$20 million investment in three tranches. The first tranche of \$5 million placed in escrow will be released upon shareholder approval of the transaction. A second tranche of \$10 million will be provided upon formation of the joint venture in China. The third tranche of \$5 million is expected to be provided by December 31, 2018 and no later than April 1, 2019. The investment agreement also contains certain other conditions precedent, which must be satisfied at each tranche. Timwell will add one member to ReWalk’s board of directors upon closing of the first tranche, and may be able to designate more under the agreement.

---

The broader strategic investment agreement includes a joint venture agreement, license agreement and supply agreement which are expected to be executed no later than July 1, 2018. Additional information regarding the investment is included in ReWalk's Form 8-K to be filed with the Securities and Exchange Commission on March 8, 2018.

**Non-GAAP Financial Measures**

To supplement its consolidated financial statements, which are prepared and presented in accordance with U.S. Generally Accepted Accounting Principles (GAAP), ReWalk believes that the use of non-GAAP accounting measures, including non-GAAP net loss, is helpful to its investors. These measures, which the Company refers to as non-GAAP financial measures, are not prepared in accordance with GAAP.

For the three months and year ended December 31, 2017 and 2016, non-GAAP net loss is calculated as GAAP net loss excluding (i) non-cash share-based compensation expense, (ii) depreciation and (iii) non-cash financial expenses.

Because of varying available valuation methodologies, subjective assumptions, and the variety of equity instruments that can impact a company's non-cash expenses, ReWalk believes that providing non-GAAP financial measures that exclude non-cash share-based compensation expense, depreciation and non-cash financial (income) expenses allows for more meaningful comparisons between operating results from period to period. Each of the Company's non-GAAP financial measures is an important tool for financial and operational decision-making and for the Company's evaluation of its operating results over different periods of time. The non-GAAP financial data are not measures of the Company's financial performance under U.S. GAAP, and should not be considered as alternatives to operating loss or net loss or any other performance measures derived in accordance with GAAP. Non-GAAP financial measures may not provide information that is directly comparable to that provided by other companies in ReWalk's industry, as other companies in the industry may calculate non-GAAP financial results differently, particularly related to non-recurring, unusual items. In addition, there are limitations in using non-GAAP financial measures because the non-GAAP financial measures are not prepared in accordance with GAAP, may be different from non-GAAP financial measures used by other companies and exclude expenses that may have a material impact on the Company's reported financial results. Further, share-based compensation expense has been, and will continue to be for the foreseeable future, a significant recurring expense in the Company's business and an important part of the compensation provided to its employees. The presentation of non-GAAP financial information is not meant to be considered in isolation or as a substitute for the directly comparable financial measures prepared in accordance with GAAP. ReWalk urges investors to review the reconciliation of the Company's non-GAAP financial measures to the comparable GAAP financial measures included below, and not to rely on any single financial measure to evaluate the Company's business.
