

## ReWalk Unveils Soft Suit Exoskeleton for Stroke Patients

June 19, 2017 12:30 PM EDT

### "Restore" NextGen Exoskeleton System Developed in Collaboration with Harvard's Wyss Institute

MARLBOROUGH, Mass. and YOKNEAM ILIT, Israel, June 19, 2017 /PRNewswire/ -- ReWalk Robotics Ltd. (Nasdaq: RWLK) ("ReWalk"), leading manufacturer of exoskeleton systems, premiered the prototype for a soft suit exoskeleton intended to assist stroke survivors on [Yahoo Finance](#).

ReWalk CEO Larry Jasinski was joined by collaborators from Harvard University's Wyss Institute for Biologically Inspired Engineering to showcase the prototype, called Restore, and demonstrate how the system works. ReWalk announced a focus on the development of the soft suit as a core company goal for FY2017.

"We are thrilled with the progress of the Restore system, which will provide life changing technology to a whole new class of patients facing mobility issues," said Jasinski. "With the prototype finished, we are eager to begin clinical studies and pursue regulatory approvals so that these systems can be provided to millions of patients who can benefit from access to the device."

ReWalk is working with the Wyss Institute on the development of lightweight designs to complete clinical studies, pursue regulatory approvals and commercialize the systems on a global scale. The first commercial application will be for stroke survivors, followed by Multiple Sclerosis patients and then additional applications. There are an estimated 3 million stroke survivors with lower limb disability in the U.S.

**How It Works:** the Restore transmits power to key joints of the legs with cable technologies, powered with software and mechanics that are similar to the technologies used in the ReWalk exoskeleton system for individuals with spinal cord injury. The cables are connected to fabric-based designs that attach to the legs and foot, thus lending the name "soft suit."

Anticipated delivery of a commercial Restore soft suit is slated for 2018.

#### About ReWalk Robotics Ltd.

ReWalk Robotics Ltd. develops, manufactures and markets wearable robotic exoskeletons for individuals with spinal cord injury. Our mission is to fundamentally change the quality of life for individuals with lower limb disability through the creation and development of market leading robotic technologies. Founded in 2001, ReWalk has headquarters in the U.S., Israel and Germany. For more information on the ReWalk systems, please visit [www.rewalk.com](http://www.rewalk.com).

ReWalk® is a registered trademark of ReWalk Robotics Ltd. in Israel.

#### Forward-Looking Statements

In addition to historical information, this press release contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, Section 27A of the U.S. Securities Act of 1933, and Section 21E of the U.S. Securities Exchange Act of 1934. Such forward-looking statements may include projections regarding ReWalk's future performance and, in some cases, may be identified by words like "anticipate," "assume," "believe," "continue," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "future," "will," "should," "would," "seek" and similar terms or phrases. The forward-looking statements contained in this press release are based on management's current expectations, which are subject to uncertainty, risks and changes in circumstances that are difficult to predict and many of which are outside of ReWalk's control. Important factors that could cause ReWalk's actual results to differ materially from those indicated in the forward-looking statements include, among others: ReWalk's expectations regarding future growth, including its ability to increase sales in its existing geographic markets and to

expand to new markets; the conclusion of ReWalk's management, and the opinion of ReWalk's auditors in their report on the Company's consolidated financial statements for the fiscal year ended December 31, 2016, that there are substantial doubts as to ReWalk's ability to continue as a going concern; ReWalk's ability to maintain and grow its reputation and to achieve and maintain market acceptance of its products; ReWalk's ability to achieve reimbursement from third-party payors for its products; ReWalk's ability to repay its secured indebtedness; ReWalk's expectations as to its clinical research program and clinical results; ReWalk's expectations as to the results of, and the Food and Drug Administration's potential regulatory actions with respect to, ReWalk's mandatory post-market 522 surveillance study; the outcome of ongoing shareholder class action litigation relating to ReWalk's initial public offering; ReWalk's ability to improve its products and develop new products; ReWalk's ability to maintain adequate protection of its intellectual property and to avoid violation of the intellectual property rights of others; ReWalk's ability to gain and maintain regulatory approvals; ReWalk's ability to use effectively the proceeds of its 2016 follow-on offering; ReWalk's ability to secure capital from its at-the-market equity distribution program based on the price range of its ordinary shares and conditions in the financial markets; ReWalk's ability to maintain relationships with existing customers and develop relationships with new customers; ReWalk's ability to regain compliance with NASDAQ continued listing requirements; and other factors discussed under the heading "Risk Factors" in ReWalk's Annual Report on Form 10-K for the year ended December 31, 2016 filed with the U.S. Securities and Exchange Commission and other documents subsequently filed with or furnished to the U.S. Securities and Exchange Commission. Any forward-looking statement made in this press release speaks only as of the date hereof. Factors or events that could cause ReWalk's actual results to differ from the statements contained herein may emerge from time to time, and it is not possible for ReWalk to predict all of them. Except as required by law, ReWalk undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future developments or otherwise.
